

VITALII HULAIEVYCH

Frontend Developer · React · TypeScript · Next.js

Port Glasgow, UK | +44 7360 026 292 | v.hulaievych@gmail.com | v-hulaievych.website | linkedin.com/in/vitalii-hulaievych | github.com/Vitalii120296

PROFESSIONAL SUMMARY

Frontend Developer specialising in React, TypeScript, and Next.js — with a strong focus on performance, SEO, and scroll-driven animation (GSAP ScrollTrigger). Delivered production websites for real clients and built complex full-stack applications, including a CRM with Supabase authentication and RLS policies. Brings reliability, attention to detail, and a strong work ethic into every project.

TECHNICAL SKILLS

Core: TypeScript, JavaScript (ES6+), React, Next.js, HTML5, CSS3

State & Data: Zustand, Redux Toolkit, TanStack Query, React Hook Form, React Router, i18next

Styling & UI: Tailwind, SCSS/Sass, BEM, Material UI, Shadcn UI / Radix UI, Framer Motion, GSAP

Animation: GSAP ScrollTrigger (scroll-scrubbed video, pinned horizontal scroll, SplitText reveals)

Backend & APIs: Node.js, Express, REST API, WebSockets, Firebase, Supabase

Databases: PostgreSQL, Prisma, Sequelize, SQL

Tooling: Git, Vite, Docker, ESLint, Prettier, Vercel

Languages: Ukrainian (Native), English (Intermediate), Polish (Conversational)

FREELANCE EXPERIENCE

Freelance Frontend Developer 2025 – Present

Delivered complete web projects for real clients — from initial brief through to production deployment.

Snowy Smiles · Medical & Beauty Website (Oct 2025)

- Built a modern, trustworthy UI for a medical beauty business from scratch to production.
- Clear service structure, strong visual hierarchy, and fully responsive layout across all devices.

Elegant Beauty Studio · Beauty Salon Website (May 2025)

- Developed a clean, user-friendly interface aligned with the client's brand identity.
- Collaborated with the client to deliver a performance-optimized, production-ready solution.

SELECTED PROJECTS

Solar Energy Construction Company Website Jun 2026

Next.js 16 · React 19 · GSAP ScrollTrigger · Tailwind CSS 4 · Shadcn UI / Radix UI

- Developed a high-performance marketing website for a utility-scale solar, wind, and infrastructure construction company — combining SSR architecture with cinematic scroll-driven animation.
- GSAP ScrollTrigger: scroll-scrubbed video hero (FFmpeg-optimised, frame-accurate playback) and pinned horizontal Case Studies gallery — both implemented from scratch.
- Full SEO setup: Next.js Metadata API, Open Graph / Twitter Card tags, auto-generated sitemap.xml and robots.txt; SSR ensures fully-rendered HTML for faster indexing and improved Core Web Vitals.
- Animated text reveals (SplitText), theme-aware light/dark mode, accessible Radix UI components, and fully responsive across all devices.

FlowCRM — Full-Stack CRM Application May 2026

[Next.js](#) · [Supabase](#) · [PostgreSQL](#) · [Material UI](#) · [Zustand](#)

- Full-stack CRM with user authentication, business registration, and product management using Next.js App Router and Supabase.
- Server-side auth via Supabase SSR, RLS policies, and PostgreSQL trigger functions for automated data integrity.
- Zustand store hydrated from server-side auth state; environment-based config across local and Vercel deployments.
- Clean App Router architecture with clear separation between server components, client components, and route handlers.

Personal Portfolio Website Mar 2026

[React 19](#) · [React Router 7 \(SSR\)](#) · [TypeScript](#) · [Vite](#) · [Tailwind CSS 4](#) · [GSAP](#) · [Three.js](#) · [OGL](#) · [Firebase](#)

- Built with React 19, React Router 7 (SSR), TypeScript, and Vite — full frontend architecture from routing to deployment on GitHub Pages. Created a modern, interactive interface with animations and a strong focus on UX.
- Animations and 3D effects implemented with GSAP, Three.js, and OGL; UI components via Tailwind CSS 4 and Shadcn / Radix UI.
- Data layer: Zustand for state management, TanStack Query for server-state caching, React Hook Form, and Firebase backend integration.

React Phone Catalog (Nice Gadgets) Apr 2025

[React](#) · [TypeScript](#) · [React Router](#) · [REST API](#)

- E-commerce catalogue with dynamic routing, filtering, cart, and favourites — clean component-based architecture.
- Fully responsive interface with smooth state management and optimised render performance.

PREVIOUS WORK HISTORY

Prior to retraining as a Frontend Developer, I built a strong work record in warehouse logistics and hospitality across Poland and the UK — gaining experience in fast-paced team environments, maintaining high standards under pressure, and adapting quickly to new roles.

Room Attendant / Linen Porter · Hotelcare

Glasgow / Edinburgh May 2023 – Dec 2025

Warehouse Operative · Pertemps Network (client: Tesco)

Livingston, Scotland Nov 2022 – Jul 2023

Seasonal Agricultural Worker · I M Brown

Pittenweem / Anstruther, Scotland Jul 2022 – Oct 2022

Warehouse Worker · Eurocash Group

Sosnowiec / Kraków, Poland 2016 – 2022

EDUCATION

Full-Stack Frontend Developer Certificate 2026

[Mate Academy](#) — [Intensive Bootcamp](#)

- Git, HTML/CSS, JavaScript, TypeScript, React, Node.js, PostgreSQL, Agile practices.

Specialist in Software Development 2015

[Chervonohrad Mining and Economic College, Ukraine](#)

Self-directed learning:

- freeCodeCamp — HTML, CSS, JavaScript
- React Official Documentation (reactjs.org)
