Summary

Frontend Developer specializing in building fast, responsive, and user-friendly web applications. Strong expertise in JavaScript (ES6+), React, HTML5, SCSS, and modern CSS methodologies including BEM and Tailwind.
I create clean, scalable interfaces and focus on performance, usability, and business value. Experienced with Zustand, React Hook Form, and TanStack Query to build efficient and maintainable frontend architectures. Always focused on delivering reliable results and continuously improving through hands-on development.

Skills:

- TypeScript, JavaScript, basic C++
- React, Redux Toolkit, Zustand, TanStack Query, React Hook Form, React Router, i18next
- HTML5, CSS3, Sass (SCSS), BEM, Tailwind, Material UI, Shadcn UI, Framer Motion
- Node.js, Express, REST API, Fetch, WebSockets, Firebase
- SQL, PostgreSQL, Sequelize, Prisma
- Git, Webpack, Vite, Babel, Docker, ESLint, Prettier
- Unit Testing (Jest), End-to-End Testing (Cypress)
- OOP fundamentals, SDLC, Waterfall, Agile (Scrum, Kanban)
- English – Pre-Intermediate
- Ukrainian – Native
- Polish – Spoken & Reading

Education:

Chervonohrad Mining and Economic College
Junior Specialist in Software Development
2011 – 2015

Experience:

Frontend Developer, Elegant Beauty Studio [May, 2025]

Responsibilities:

- Developed a clean, user-friendly interface aligned with the client's brand identity.
- Built a fully responsive layout for mobile, tablet, and desktop devices.
- Collaborated with the client to deliver a performance-optimized, production-ready solution.
- Improved usability and ensured consistent UI/UX across all screen sizes
